

Clarity

Clarity is a single glazed dry jointed partition system designed with the minimum of components, thus facilitating speed of erection without compromising strength and rigidity.

Clarity allows light to flood through the workspace creating an atmosphere of space, yet at the same time effectively providing a physical division without separation creating an ideal environment where concentration and creativity can flourish. It can be designed with straight lines, faceted or graceful curves and Clarity's minimalist form exudes elegance and luxury which meets the exacting requirements of both architects and premises professionals alike.

- 38mm nominal overall partition thickness.
- Slim aluminium head, wall abutment and floor framework is available in satin anodised aluminium or coloured to your choice.
- Clarity is a virtually frameless partition system with no vertical posts between modules, corners or three way junctions.
- Clarity accepts a variety of doors including frameless full height glazed and standard glazed which may be hinge hung or pivoted and be operated by floor springs. Glass doors may also be of single or double action.
- Full height or standard height veneered doors may also be hung in matching timber or alternatively hung within a common aluminium doorframe.
- The crystal clear wedges that grip the glass allow for a quick, simple and clean installation and eliminate the traditional wet joint method of fixing glass and enables immediate use of area upon completion. This dry joint method of fixing is of great benefit when future relocation of Clarity may be necessary as it alleviates wastage of glass.
- Visual privacy can be achieved with the potential for breath-taking manifestations on the glass frontage meaning that each installation can be unique.

SPECIFICATION

- Glazing options can accommodate 10 or 12mm toughened safety glass providing sound privacy of 36dB (Rw). All glass conforms to BS6262 and BS6206 in accordance with Document 'N' of the Building Regulations.
